Can

Walking and cycling in the area is reasonable because of the relatively low level of traffic but roads are single track with few passing places. Opportunities for improvement are limited however because of the topography of the area. The canal tow path provides a good quality route to Lochgilphead and Ardrishaig.

Q2. Public Transport: Does public transport meet my needs?

Q3. Traffic and Parking Do traffic and parking arrangements allow people to move around safely?

2.0		- 5.0				5.0

Can

The roads are single track with parking places and no pavements. Cars generally take priority, example there are no passing places between my home and the canal often resulting in me and my dogs having to climb the bank to allow cars to pass us. However traffic volumes are low and improvements would be limited by the topography of the area.

Q4. Streets and Spaces Do the streets and public spaces create an attractive place that is easy to navigate?

Q5. Natural Space: Can I experience good quality green spaces?

Can

The natural space is our main asset. However there is a lack of seating and access for those with mobility issues is difficult. Maintenance is reducing as funding becomes scarcer. There are untapped opportunities.

Q6. Play and Recreation Can I access a range of places for play and recreation?

Q7. Facilities and Amenities: Does my place have the things I need to live and enjoy life? This could include shops, schools, libraries, health services or places to eat and drink.

Comments

The economy is heavily reliant on the public sector (Council and NHS) which do provide high quality jobs but more diversity is needed. There is limited access to training facilities in the Mid Argyll area. There is no job centre or recruitment agency. There is a lack of business accommodation

Q10. Social Contacts: there a range of spaces and opportunities to meet people?

Com

Overall I feel very safe in the area and crime is low. My biggest concern is about drugs and extent to which drugs are available to young people in the area.

Q13. Care and Maintenance Are buildings and spaces well cared for?

Can

The local of a buoyant economy is impacting on the maintenance of privately owned building.

Q14. Influence and Sense of Control feel able to take part in

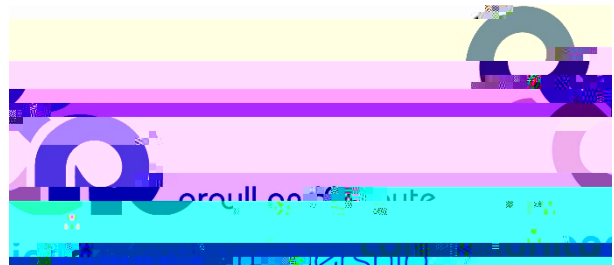

10/10/10

Developing the untapped opportunities in the immediate local area that would provide facilities for local people and visitors. Tackling drugs. The maintenance of private building.

Development of the Crinan canal basin and the provision of moorings Targeting drug enforcement. Grants for private building owners.
