There is no sense of control the area is trying to be run by a local community development company who will not

What are the main issues and priorities for change that you have identified?

Better broadband and 4G needed, especially on the east side of the island. More houses need

What actions could be taken to deal with these?

Build more houses for permanent occupation. Make land available employment opportunities. Resolve schooling and transport issues.
--

Housing = more residents = enhanced community

More community involvement not just a group who although voted on will not keep the community informed as to what they are doing Better fire and air services Less new build houses in odd places

More meetings for groups at an affordable price (Hall very overpriced)
