Not many good quality jobs available.
There are a few jobs but they are low paying. Many people leave the island for job prospects.
There are not a lot of jobs on the Island that offer salaries and good T&C's.
This is a crofting community with limited employment opportunities. Most people seem to have several jobs in order to get by. The jobs that are available tend to be seasonal casual labour paying the minimum wage.
Younger adults leave because of no work

Been a bit of crime lately when there never used to be.
Extremely.
Feel safe for most part but still check over my shoulder, especially when alone and during Summer
We feel very safe here, though sadly there have been a few thefts on the island over the past year so we now have to lock our doors.

I am personally not interested in community involvement.
I don't feel there is much opportunity for this available.
I feel that new islanders have taken over
There's a very active community council here.

What are the main issues and priorities for change that you have identified?

Affordable housing for young folk Job opportunities Cycle paths

What actions could be taken to deal with these?

A space being made for the youth and young. And sorting the housing in whatever way can be possible. Lowering rentals and offering first time buyers or buyers to the island a helping hand in some way. Make the island more appealing for young families to help stop the de line kids and young families.

Allow tourism infrastructure Ban sales of empty property as holiday lets

Council to provide more flexible working opportunities on the Island. Government to provide Cal Mac with improved boats. Build affordable housing that local folk can buy. Attract higher quality teachers and provide housing for them.

Getting a football league up and running again would help

Make them remove them.

Put money into infrastructure on the island.
