

The undersigned applicant hereby makes application to express preliminary consent for the development described on this form and on the accompanying plans.

This form should not be used for applications for preliminary consent (including fish farms) above low water mark. Mineral Consent, Listed Bird Habitat, Conservation Area, and Riparian Consent Categories. Lawfulness of Prior Notification as separate application forms are available for the.

Please refer to the accompanying Guidance Notes when preparing this application. Limited space is available on this form print 0125 552 0000 or 0125 552 0000 on A4 paper.

1. Applicant (IN BLOCK CAPITALS)

Full Name

Address.....

.....

.....

Post Code.....

Tel. No.....

Email address.....

2. Agent (IN BLOCK CAPITALS)

Full Name

Address

.....

.....

Post Code

Tel. No.

Email address.....

3. Location of Proposed Development: Please identify/describe the location of the site or sites

(a) Description of the location of the development

.....

.....

.....

.....

(b) Grid reference of mid-point of site: Easting.....Northing.....

(c) Latitude/Longitude position

4. Type of Application: What is the application for? Please select one of the following:

New site

Change of Use of Existing site (including species change)

Alterations/extension to an existing site

Variation or removal of condition

***If there have been previous planning permissions on this site please provide the reference number of the most recent one:**

6. Development Area

Please state the dimensions of the site in metres and the total site area in both square metres and hectares:

	Site dimensions		(sq.m)	Total Site Area
	Length (m)	Width (m)		(hectares)
Existing Surface area:				
Proposed surface area:				
Existing moorings area:				
Proposed moorings area:				

Is the surface area of the site 2 hectares of above?

Yes/No

If yes please include with your application a pre application consultations

phNoTw 0.329 0 Td (yo)Tj 02 0 Td (p)Tj 0.55

8. Production Information	Existing	Proposed
Maximum stocked biomass (tonnes)		
Maximum production biomass per cycle (tonnes)		
Proposed production cycle (months)		

Stocki

What operational and management practices are to be put in place to

12. Water Quality

Has a water quality report been prepared? Yes No

If yes, please attach a copy of the report with your application.

If a shellfish proposal, please indicate status of water (e.g. is it shellfish waters)

.....5(.).13.2(.)]TJ 0 Tq 42.12 62

16. Land Ownership Certificate (includes seabed)

(a) I hereby certify that 21 days before the date of the application: (tick one box only)

1. No person (other than the applicant) was the owner of any of the land, including the seabed, to which

DECLARATION

I, the applicant/agent certify that this is an application for planning permission. The accompanying plans/drawings and additional information are provided as part of this application.

I, the applicant /agent hereby certify that the attached Land Ownership Certificate has been completed:

Signature:

Name:

Date:

Any personal data that you have been asked to provide on this form w

Application for Marine Fish Farm Planning Permission

Town and Country Planning (Scotland) Acts

1. Applicant Name and Address

Please enter the Applicant Details, including full name and title. Please also enter the house name or number and full address including full postcode.

If the application is being submitted by an agent (i.e. someone who is acting on the applicant's behalf), all correspondence, including the decision letter, will be sent to him/her.

2. n

6. Development Area

Please enter the area in hectares and square metres of the surface area of the development. Also, provide the area in hectares and square metres of the mooring containment area.

Sites with a surface area of 2 hectares or above are considered as major developments. Such developments require to be accompanied by a pre-application consultation report together with a design statement.

The applicant is required to give the local authority at least 12 weeks notice prior to submitting an application for a major development.

Further details on pre- application consultations and design statements can be obtained from your local planning authority or from the following web links:

- pre application consultations - <http://www.scotland>

11. Discharges

Finfish aquaculture developments require to obtain a licence under the Water Environment (Controlled Activities) (Scotland) Regulations 2005 (CAR). These regulations are managed by SEPA. If a license has been approved please provide details of the date of the approval and the maximum biomass production

16. Certificate of Ownership (this includes seabed)

You do not need to have any legal interest in the land to which the application relates when you apply for planning permission, nor do you require the consent of the owner. However, if you do not own the land(seabed) to which the application relates, you are legally required to give notice of the making of the planning application to the owner and to any agricultural tenant of the land(seabed). You must complete the appropriate Certificate of Ownership for your application to be validated by the planning authority. It should be noted that for nearly all marine activities, the seabed is owned by the Crown.

- **Plans –**
 - **Location Plan with application site (mooring containment area) outlined in red:** at a scale of 1:10,000 or 1:25,000 showing a north point. For avoidance of doubt, the application site is the seabed area enclosed by the equipment mooring
 - **Admiralty Chart extract –** this should include details of the known water depth, reduced to chart datum at:
 - a) Each corner of the proposed equipment;
 - b) Each extremity of the area to be occupied by moorings;
 - c) The position of least depth within the area occupied by the moorings;
 - d) Location of each mooring; and
 - d) The mid-point of the site
Please quote positions in degrees, minutes and decimals of a minute in the following format: 12034'.54 N, 123045'.67 W (WGS84), along with the relevant Ordnance Survey Grid reference, correct to at least six figures for example, NT 253 736
 - **Site Plan/block plan with application site (mooring containment area) outlined in red:** at a scale of 1:500 showing a north point. The plan should show the boundaries of the site and accurately show the location of all the equipment proposed. Plans for alteration or extensions to existing sites should show both existing and proposed equipment, clearly indicating existing and proposed equipment. The site plan should also give a 6-figure Ordnance Survey grid reference for the center of the site along with the latitude/longitude positions of the external corners or edges.
 - **Plans, and sections of all equipment (primary and ancillary).** Shall be submitted as part of the application these should be at a scale of no less than 1:100 and provided full and accurate details of all equipment (cages/cultivating equipment, moorings and all ancillary equipment)
- **Photographs and/or photomontages:** These can provide a useful aid to the planning process particularly in visually sensitive sites. However, they are not required in all instances. Where the local authority has specified a need for them (e.g. in a scoping opinion) its requirements must be met.

If you are unclear if your development requires an Environmental Statement or a Landscape and Visual Impact Assessment, please discuss the matter with a planning officer prior to submitting your application.

- **Design Statement:** Required for all new applications
